## ***Baverstock***

A lecture was delivered in the School Room of this place (Baverstock), on Tuesday last. The subject was “The Arctic Regions and Sir John Franklin” and was treated in an interesting and instructive manner by the lecturer, the Rev. J. Maguire, B.A., of Salisbury. There was a numerous attendance, consisting mostly of villagers, who appeared gratified both with the subject matter of the lecture and the way in which it was placed before them.
