

Chitterne Church Organ

This two manual and pedal organ was built by Henry Willis and Sons of Hereford and installed in Laleham Abbey Convent, Middlesex in 1968. The organ went with the Convent when it moved to Glenfall House, Cheltenham, in 1980. When the Convent closed in 1991, the organ was no longer required and needed a home.

The Salisbury Diocesan Organ Advisor, Mr. David Oliver of Westbury, offered the organ to Chitterne at no cost save that of refurbishment and installation. Mr. John Coulson of Bristol restored and installed the organ and made the case in 1993 and 1994, the cost being £86000. This sum was raised from fund raising activities in the village and from donations (£4890) from 19 Chitterne families and 6 families living outside the parish but with close connections with the Church.

The organ's specification is as follows:

Swell Organ

Sext 2 rks	12:17
Blockflote	2
Spindle Flote	4
Salocional	8
Rohr Flute	8
