

Land & Buildings Salisbury

Foot and Mouth Disease

The London Gazette contains an Order of the Minister of Agriculture which declares the following to be the scheduled area under the Foot and Mouth Disease Infected Areas Order of 1924 in the county of Wilts. The boroughs of Salisbury and Wilton; the Petty Divisions of Salisbury and Amesbury (except the parishes of Orcheston St Mary, Orcheston St George, Shrewton, Rolleston, and Maddington), and the parishes of Sutton Mandeville, Swallowcliffe and Alvediston; the whole of the land and buildings known as Rectory Farm, in the occupation of Reginald Stanley Poulton, in the parish of Britford, Wiltshire.

The Foot and Mouth Disease infected place described in the schedule to the Order of the Minister, dated 29th August, is extended so as to include the whole of the buildings and fields adjoining thereto, known as Manor Dairy Farm, in the parish of Britford, and in the occupation of Herbert Richard Harding.

Western Daily Press Saturday 6th September 1924

(OPC Note - The disease was still around over a year later when the restrictions were still in force and it was also present into Gloucestershire and Hampshire).

It is probable that Salisbury Market will remain open for the sale of cattle only for immediate slaughter.
