

Seend - Holy Cross

## *Church Repairs*

It affords us much pleasure to record the improvements making in the interior of Seend Church, through the generosity of Wadham Locke, esq. With the exception of the Chancel it has been entirely repewed, and the arrangements are in every respect good, the pews being much more commodious than formerly. On Sunday the 5th inst a numerous congregation was gratified by the harmonious tunes of a new organ, erected by subscription. A talented gentleman presided, whose performance, combined with the brilliant tones of the instrument, gave a highest satisfaction. The cost of the instrument was very moderate, and reflects great credit on the builder, Mr James Clark. 14 Oxford Buildings, Bath.
